

Faculty	Bioengineering of Animal Resources
Department	Biotechnology
The position in the state of functions	8/II
Function	Professor
The subjects from in the education plan	Genetic Engineering 1, Technology of Biosynthetic Products 1, Technology of Biosynthetic Products 2
Scientific field	Engineering Sciences; Engineering of plant and animal resources; Biotechnology
Related duties/activities	Teaching activities and applied activities in the disciplines: Genetic Engineering 1, conducted in the first semester with 4th year students, Agricultural Biotechnologies study program, Faculty of Bioengineering of Animal Resources. Technology of Biosynthetic Products 1, conducted in the first semester with 4th year students, Agricultural Biotechnologies study program, Faculty of Bioengineering of Animal Resources. Technology of Biosynthetic Products 2, conducted in the second semester with 4th year students, Agricultural Biotechnologies study program, Faculty of Bioengineering of Animal Resources. Guidance in the elaboration of bachelor's theses and development of diploma projects; guidance in the development of master's dissertations; other teaching, practical and scientific research activities included in the curricula; evaluation activities; tutoring, consultations, guidance of student scientific groups, as well as guidance and counselling of students during mobilities; participation in councils and committees in the field of education; activities for developing teaching materials; creation of digital content for disciplines in the field of activity; participation in committees responsible for the specific activities within the department, faculty or university; scientific research activities specific to the field of specialization; elaboration, development and submitting grants in internal, national and international competitions or in collaboration with the private sector; activities for technological and scientific transfer; activities for publishing the results obtained from scientific/didactic research; promotion activities and connection with the economic environment; other activities.
