

Faculty	Bioengineering of Animal Resources
Department	Biotechnology
The position in the state of functions	8/II
Function	Professor
The subjects in the education plan	Genetic Engineering 1, Technology of Biosynthetic Products 1, Technology of Biosynthetic Products 2
Scientific field	Engineering Sciences; Engineering of plant and animal resources; Biotechnology
Job description	The position of University Professor, for an indefinite period, vacant position no. 8/II, from the staff list of teaching and research personnel, approved in the academic year 2024/2025, contains a norm of 11.00 conventional hours, covered with lecture hours and practical works, with the following distribution by subjects: Genetic Engineering 1, carried out in the first semester with the 4th year students in Agricultural Biotechnologies study program, Faculty of Bioengineering of Animal Resources: 2 lecture hours/week x 1 series, with an average of 2.00 conventional hours/year; a students formation with 2 hours of practical works/week, with an average of 1.0 conventional hour/year; Technology of Biosynthetic Products 1, conducted in the first semester with the 4th year students in Agricultural Biotechnologies study program, Faculty of Bioengineering of Animal Resources: 2 hours of lectures/week x 1 series, with an average of 2.00 conventional hours/year; 2 students formations with 2 hours of practical works/week, with an average of 2.0 conventional hours/year; Technology of Biosynthetic Products 2, conducted in the second semester with the 4th year students in Agricultural Biotechnologies study program, Faculty of Bioengineering of Animal Resources: 2 hours of lectures/week x 1 series, with an average of 2.00 conventional hours/year; 2 students formations with 2 hours of practical works/week, with an average of 2.0 conventional hours/year.
